Procurement Made Easy

- ✓ Online vendor/supplier registration;
- ✓ Comprehensive vendor pre-qualification;
- ✓ Bid documents and data encrypted;
- ✓ Selective/private/public e-tendering.

About MYeTenders

MYeTenders takes care of the complete procurement life cycle, starting with vendor registration and pre-qualification and ending with the awarding of contracts and tracking of purchase orders and invoices.

Pre-qualification

Vendors can be pre-qualified for various categories of tenders and upload any required pre-qualification documents and data.

Easy To Administer

Administrative staff can manage users, create tenders, provide feedback to vendors, pre-qualify vendors, award contracts and more.

Safe and Secure

All bid documents are encrypted using 128bit encryption and cannot be viewed unless two electronic keys are provided.

Control Access

Public/Private tenders can be created as well as selective tendering is also supported by the system.
